

## Job Description: Apprentice Joiner

Job Title: Apprentice Joiner

Term: Full time. Permanent.

Location: Cumnock, Ayrshire. Occasional travel to sites across the UK

Salary: In line with minimum wage.

### Job Summary

A fantastic opportunity to learn construction skills for the future of housebuilding. You will be involved in modular construction of timber-framed homes, experiencing first-hand the improvements in efficiency and sustainability that can be achieved in a factory setting. You will be required to attend college on a block release basis.

### About Us

We are an ambitious organization experiencing high growth. Enthusiastic individuals who enjoy taking on responsibility and continually improving will fit in well with our team.

There are two sides to our business, bespoke homes for individuals sold under The Wee House Company Brand and affordable housing for the public sector delivered by Connect Modular.

Through modular construction, **The Wee House Company** makes it possible for customers to have their dream home in remote locations such as Scottish Highlands and Islands. Making the homebuilding experience hassle-free and enjoyable for the customer is key, with WHC taking care of everything from design and consents to ground works.

Our modular construction method means **Connect Modular** can build better, greener homes that can be occupied faster to help the Scottish social housing sector meet it's target of 110,000 new affordable homes by 2032.

### An apprentice joiner will require the following:

- To be self-motivated and with a positive attitude
- To be punctual and reliable
- To be ambitious and eager to learn
- Excellent communication skills both verbal and written
- Minimum National 4 level Maths and English or equivalent

### The role will involve:

- Working under instruction of the Factory Manager and lead Joiner
- Support from colleagues and managers to learn and develop your skills, both on the job and at college

- Obtaining a nationally recognised qualification (SVQ)
- Following the Wee House Company Manufacturing and Construction Training Handbook
- Using safe working practices incorporating health and safety and environmental rules
- Working within the Wee House Company BOPAS and ISO quality assurance frameworks
- Learning joinery and carpentry skills related to but not limited to:
  - Floorplate
  - External walls
  - Ceiling/roof
  - Internal stage 1 (roughing)
  - Internal stage 2 (finishing)
  - Assembly of modules on site
- Learning about collaboration and coordination with other trades
